

# NITRAMIN

Product rich in protein , amino acids, and organic matter.

## COMPOSITION:

Special preparation of 20% (w / w) free amino acids, peptides, and proteins rich in vitamins B1, B2, nitric acid, folic acid.

## APPLICATION:

The product is suitable for all crops and is applied to soil and foliage.

## DOSAGE:

Application to the ground:

Irrigation water is recommended 2-3 applications in the growing season every 10-15 days at a dose of 1-2 liters per acre

Foliage:

4-5 applications at a dose of 100-250 ml are recommended. per 100 liters of water. In extensive crops it is recommended to enter with herbicides which increase its activity by supplementing the nutrition of the plants at the dose of 100 ml . per acre.

## Advantages:

Contains proteins and amino acids that increase the absorption of nutrients, their movement within the plant and their rapid assimilation .

Use only where there is an identified need.

Do not exceed the appropriate doses of application.

Packaging: 1LT / 5LT / 10LT / 20LT
