

NITROWETT 15 SL

NITROWETT is an organic liquid solution that improves the wetting capacity of the spraying solution.

It contains 85% w / w of auxiliary substances and 15% w / w active substance (ethoxylated isodecyl alcohol).

NITROWETT remains stable for two (2) years from its date of manufacture.

Preparation of the spraying liquid:

Fill the dispenser container with water up to the waist. Dilute the chemical to be applied in a small amount of water and pour it into the spray container by stirring. Add the remaining water while stirring. Finally, add and stir the NITROWETT container.

PACKING:

50ml
100ml
250ml
500ml
1 ltr

APPLICATION - DOSAGE

- Add 13-18ml NITROWETT formula, in a 100 liter spray solution containing insecticides, organic fungicides and wetting sulfur.
- In a 100 liter spray solution containing herbicides and foliar fertilizers, add 25-30ml NITROWETT formulation.
- In a 100 liter spray solution containing copper fungicides, add 18-25mL NITROWETT formulation.

THIS IS NOT A PLANT PROTECTION PRODUCT.
