

SLUXX HP

FERRIC PHOSPHATE 2.97% w/w

SLUXX HP is allowed for use in organic farming according to EC Reg. 834/2007 and 889/2008.

DESCRIPTION

Granular snailcide for fighting off/wiping out snails and slugs.

It has attractive abilities and acts through the stomach. After the swallowing/ingestion of the product, the snails and slugs stop feeding themselves and stop discharging emissions on plants.

APPLICATION

Equal dispersion to the whole surface of the field or the crop, immediately after the sowing or the planting or with the appearance of the infestation or with the first symptoms in the plants. Repetition of the application every 2 weeks, if necessary or after heavy rainfalls or when the quantity of the product in the field has been decreased significantly.

The information mentioned in the present document is only informative and does not replace/substitute in any case the information and instructions displayed in the registration and label of the product.

Plant protection products are intended for use by professional users.

The instructions for use and the precautions listed on the label must be followed.

For more information contact the technical department of our company or consult the local agronomists.

ADVANTADGES
