

Soluble Liquid (SL) • Mepiquat chloride 5% w/v

**NEW**

# LAUREL

**Cotton growth regulator**  
to prevent excessive vegetation and early production.  
It inhibits the biosynthesis of gibberellic acid.

**Field of Application-Target-Doses-How and time of application-Maximum number of applications per growing season/Interval:**

**Cotton:** To prevent excessive vegetation and the morning and half of the production with 50 ml. in 20-60 liter spray liquid/acre. Up to 3 applications/14 days from the beginning to the end of flowering (BBCH 61-69).

**Special agricultural, phytosanitary or environmental conditions under which the preparation may be used or excluded: --.**

**Safety interval between application and i) sowing or planting of the protected crop: --, ii) sowing or planting of the following crops: --, iii) human or animal access to the crop to which the preparation has been applied:** When the spray liquid on the plants has completely dried.

**Evidence of phytotoxicity, sensitivity of varieties and any other side effects on plants or their products:** Does not show phytotoxicity in the recommended uses and doses.

**Method of application:** Foliar spraying.

**How to make spray liquid:** Fill the sprayer tank halfway with water. Add the required amount of the formulation to the spray can while stirring. Top up with the rest of the water while continuing to stir.

**Cleaning sprayers:** Empty the spray can completely. Rinse the barrel and all parts of the sprayer with water and detergent, then rinse three (3) times with clean water.

**Instructions for the safe withdrawal of the packaging:** The empty packaging materials are rinsed under pressure with special equipment or triple rinsed (the rinse water is poured into the spray liquid) and then after being damaged by puncture or tear, to ensure no further use, are deposited in collection points, for recycling or energy recovery.

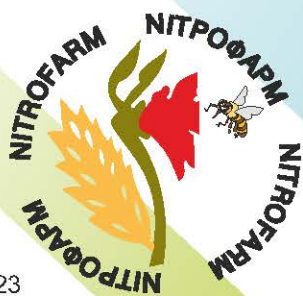

**Combinability:** --.

**Last operation before harvest or before placing on the market in the case of post-harvest uses (days):** Cotton: Not specified. Covered by application time.

**Storage conditions, time stability of the formulation:** Store tightly closed in its original packaging, in a dry, cool and well-ventilated area. In these conditions it remains stable for two (2) years.

THE INFORMATION WRITTEN IN THIS FORM HAS AN INFORMATIONAL CHARACTER AND DOES NOT SUBSTITUTE IN ANY CIRCUMSTANCES. PLANT PROTECTION PRODUCTS ARE INTENDED FOR USE BY PROFESSIONAL USERS. INSTRUCTIONS FOR USE AND PRECAUTIONS, WRITTEN ON THE LABEL MUST BE OBSERVED. FOR MORE INFORMATION CONTACT THE TECHNICAL DEPARTMENT OF OUR COMPANY OR CONSULT THE LOCAL AGRONOMISTS.

**PACKAGES: 1LT / 3LT**
