UMBRELLA

A soluble concentrate formulation containing 40% trisiloxane organosilicone copolymers + 40% esterified vegetable oil.
For use as a sticking, uptake, spreading and wetting agent.

IMPORTANT INFORMATION. FOR USE ONLY AS A SPREADING AND WETTING AGENT. For Professional Use Only.

Crops / Uses / Pesticides:	See "DIRECTIONS FOR USE" section
Standard concentration:	0.05%-0.1% of spray solution (50 ml – 100 ml / 100 Litres of solution)
Maximum concentration:	0.25% of spray solution
Maximum number of treatments:	Follow the statutory conditions of use of the pesticide
Latest time of application:	Follow the statutory conditions of use of the pesticide

INSTRUCTIONS FOR USE APPLICATION AREAS

UMBRELLA achieves better wetting of the plants and better adhesion of the spray liquid, resulting in improved uptake of pesticides.

DOSAGE OF UMBRELLA

Use UMBRELLA at 50 ml – 100 ml / 100 Litres of solution as a general adhesive wetting agent under normal conditions.

INSTRUCTIONS FOR USE

IMPORTANT: This information is approved as part of on the product label. All instructions in this section must be read carefully to achieve safe and successful use of this product.

SHAKE WELL BEFORE USING.

Use with	Maximum application rate of spray solution
Herbicides	0.15%
Insecticides	0.15%
Fungicides	0.25%
Growth regulators	0.15%
Liquid fertilizers	0.10 %

MIXING

Half fill the spray can with water and start shaking. Add the recommended amount of pesticide. Mix well and then add the required amount of UMBRELLA. Continue stirring when filling the spray can and during spraying.

COMBINABILITY

DO NOT use UMBRELLA with other oils or additives.
