

OBI®

Guaranteed composition (w/w):
Nitrogen (N): 5%, Calcium (CaO): 7.0%,
Magnesium (MgO): 1.4%,
Zinc (Zn): 0.9%, Boron (B): 0.1%

**PFC1(C)(I)(b)(i): Simple inorganic liquid
fertilizer based on macronutrients**

Liquid solution: Density approximately 1.260 kg/liter.

Contains: calcium nitrate¹ - CAS 13477-34-4 (CAS 10124-37-5),
zinc nitrate salt¹ - CAS 10196-18-6 (CAS 7779-88-6).
CMR 1: Substances and mixtures of virgin materials.

FERTILIZER

**It is not a
plant protection
product**

OBI® is an innovative product with a registered patent (ES2989481T3) containing the biostimulator ACT'IN (0906 – FPR – 20508250012552 PFC 6 (B)).

Foliar application instructions:

Rates and application time: ● 1 - 2 liters of OBI® in 100 - 200 liters of water per hectare.
● Apply when weather conditions cause abiotic stresses. Vegetables, Leafy and Small Fruits:
● Apply to 3 - 5 true leaves and then every 2 - 4 weeks. ● Apply to fruit set and fruit size 3 - 5mm, every 2 - 4 weeks. ● Leafy: Apply weekly from the 2 true leaves. Fruit trees ● Apply 1-2 weeks before flowering, and at 50% fruit set 4-6 weeks later.

Shake well before use

Storage conditions: KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place. Store in a cool, well-ventilated place. In case of accidental release, absorb with sand or earth and collect mechanically in suitable containers. Keep containers tightly closed and properly labeled.
Compatibility: Do not mix with phosphates. In any case of unknown combination, test on a small area first.

Its technology improves calcium absorption and releases stored calcium in plant cells, stimulating its movement from the hyphae to the cytoplasm to combat stress and promote its deposition in the cell wall.
This improves the quality of fruits and vegetables, extends their shelf life and improves tolerance to abiotic and biotic stress.

Maximizes crop efficiency.

Helping plants through innovation!

Foliar application of OBI® improves cell functionality, optimizing the physiological processes of plant growth and resulting in increased yield, quality and shelf life of fresh produce.

**NitroFarm SA is certified with EN ISO 9001:2015 Quality Management System
and EN ISO 14001:2015 Environmental Management System**
